# *Young Researchers' Meeting*

*at 6<sup>th</sup> International Congress of Physiological Anthropology*

---

The purpose of this young researchers' meeting is to promote our research and academic relationship in the field of biological and physiological anthropology in all its branches, including human adaptability, and human variability, and ecology, and human evolution, and genetics.

So, anybody is welcome to this meeting, **free of charge**. We are looking forward to your participation. Wine will be served!!

Details of this meeting are as follows:

**DATE: 14:00-17:00, 23rd August 2002**

**PLACE: 5F Seminar Room, Dept. of Biological Anthropology**

**THEME: "The Laboratory and Research Introduction"**

**PRESENTERS and RESEARCH TITLES:**

Dr. Takafumi Maeda, Fukushima Medical University (Japan)

*"Effects of thermal environment on thermoregulation in human"*

Mr. Tomoaki Kozaki, Kyushu Institute of Design (Japan)

*"Introduction of Kyushu Institute of Design and Research Center  
for Human Environmental Adaptation"*

Dr. Susanne Frohriep, Kiel University (Germany)

*"Current Projects - Research Group Physiological Anthropology,  
University of Kiel "*

Ms Rie Goto, University of Cambridge (UK)

*"Growth faltering, malfunction of the small intestine and Giardia  
infestation - a pilot study of Bangladeshi infants and young  
children"*

Dr. Bill Sellers, Loughborough University (UK)

*"Predicting the metabolic energy costs of bipedalism using  
evolutionary robotics "*
